Leader

in Portugal

Top 15

In Europe

Top 10

In Africa

Top 3

In Latin America

Founded in 1946 by Manuel António da Mota, the company began its activity in Angola, later expanding across the African continent;

The company won its first contract in Portugal in 1975, carrying out one of the works of the 20th century in Portugal between 1977-1983, the Regularization of the Mondego Riverbed;

In 1987 Mota & Cia was listed on the Portuguese stock exchange;

In 1994, the company took part in the first PPP project in Portugal and currently has a vast track-record in infrastructure concessions developed internationally in Europe, Africa and Latin America.

In 2000, the Mota family acquired Engil, thus forming Mota-Engil and since then becoming the leader in Portugal in the construction and waste management sector;

In 2009, the Manuel António da Mota Foundation was created, deepening the corporate social responsibility strategy developed since the Group's foundation, with the communities in which it is present;

Over the last 15 years, Mota-Engil has defined Africa and Latin America as the main focus of its internationalization strategy;

In 2024, the Group reached record levels in terms of its order book and activity, which allowed it, for the first time, to achieve a place among the 10 largest construction companies in Latin America (#2) and Africa (#8), placing it in the European Top 15 (#14);

The Group currently has 55,000 employees in 21 countries.

Mota-Engil SGPS

Capital Market and Shareholders

Stock Market Presence

The company Mota-Engil SGPS is listed on Euronext Lisbon, and belongs to the main index of the Portuguese stock exchange (PSI-20), with share capital of €306,775,950.

With a long tradition of belonging to the capital markets, the story of Mota-Engil’s own incorporation is tied to exchange transactions resulting in a merger between Mota & Companhia and Engil, which gave rise to Mota-Engil, an industry leader in Portugal and benchmark on a European scale.

Shareholders

The Mota-Engil Group was established in 1946 by the Mota family, which remains its largest shareholder to this day through FM-Sociedade de Controlo, with a long-term commitment to the company.

In 2021, the Chinese group CCCC, one of the biggest construction companies in the world, joined the shareholder structure with a 32.4% stake, reinforcing the Group’s ability to operate on a global scale.

* Of which Mutima Capital has a holding of 1.9%.

Industrial Engineering Services

Industrial Services are one of the main growth drivers of Mota-Engil, by capitalizing on group’s footprint and track-record since 1998.

Continental footprint and recognized experience in Industrial Services with proven capacity to operate in multiple markets as a competitive advantage, is Mota-Engil’s value proposition to its clients in a reliable and long-term partnership with some of the most recognized multinational investors, materialized with contracts with an average extension between 3 – 8 years.

Business Areas

Environment

The Mota-Engil Group started operating in the environmental sector in 1995 in Portugal through SUMA in the segment of urban waste collection and management, later leveraging synergies with EGF, a leading company in waste treatment and recovery, with cutting-edge european technology in this area and in energy production through biogas capture in landfills and from its energy recovery plant.

At an international level, Mota-Engil has increasingly expanded its business in this sector to markets such as Angola (Vista Waste), Mozambique (Eco Life), Cape Verde (Agir), Brazil (Suma Brasil), Oman (Eco Vision), and Côte d’Ivoire (Eco Eburnie and Clean Eburnie), with the goal of continuing to build on its business, thereby contributing towards a better world prepared for the next generations.

Business Areas

Mota-Engil Capital

Mota-Engil Capital is the business unit with the goal of leveraging the value creation for the Group through a diversification of investments supported by an integrated management of a set of assets and projects complementary to the Engineering and Construction or Environment segments, working closely with the Group’s core businesses.

With this strategic vision,
Mota-Engil Capital focuses on its portfolio:

- The management of **Transport Concessions**, as well as their operation and maintenance (through Mota-Engil Concessões as well as Lineas), continuing a 25-year track record in the concessions management;
- Innovative business areas associated with **Energy and Mobility** (through Mota-Engil Renewing), as well as in **Asset Management** (through Mota-Engil ATIV), which focuses on the provision of specialized technical services, namely through the maintenance in buildings, industry and water infrastructures, as well as in the design, management, construction and maintenance of outdoor spaces, and whose sustained growth has led to its recognition in the creation of value in the landscape industry.

Business Areas

Mota-Engil Next

Mota-Engil Next (MEXT) was set up with the aim of reinforcing investment in **Innovation** and being an accelerator of the Group's global **Transformation**. It aims to strengthen and acquire new long-term competitive advantages, paving the way for a prosperous and sustainable future for Mota-Engil, for the planet and for future generations.

As a sub-holding company, MEXT has executive responsibility for a number of subsidiaries that operate in different areas, such as:

- Real Estate, through **Emerge**;
- Agroforestry production, through **Mamaland**;
- Mining, through **LGM**; and
- Energy, through **Mewton**.

To achieve these goals:

MEXT leverages collaboration within the group, between companies and employees, and with external entities, universities, clusters or start-ups, with the purpose of "Inspiring, challenging and empowering everyone, through collaboration, to commit their creativity and knowledge to building the Mota-Engil of the Future and a Better World."

Aimed at fulfilling its purpose, MEXT's organization takes form on the following corporate areas: Transformation Workshop, Innovation Lab, Investment Workshop, Communication (Creative Lab) and Business.

- 1 - AURIOS – PORTUGAL
- 2 - VARANDAS DO PARQUE – PORTUGAL
- 3 - OPO CITY - PORTUGAL

Mota-Engil Group

Manuel António da Mota Foundation

Sustainable Development
Social Responsibility

In each attitude, *a shared future*

We believe in the benefits of a management model that is ethically, socially and environmentally responsible. For this reason, we share a responsible attitude of sustainable growth, respecting the well-being of future generations, implementing standards of eco-efficiency and contributing towards the development of the community that surrounds us.

This is our strength.

The Foundation honours the name of the Group’s founder and its sole sponsor is Mota-Engil

An important instrument of the policy of social responsibility, as an organised and systematised expression of an ethical and socially committed management, the Foundation operates on behalf of an active and participatory business citizenship, through which the Mota-Engil Group seeks to contribute to the communities where it does business, especially in the social, cultural, educational, training and environmental fields.

Strategic Objectives

Creation of value based on the best international practices

Eco-efficiency and innovation

Protection of the environment

Entrepreneurial ethics in the values, culture and management model

Dialog based on transparency and openness in relationships

Management of human capital and respect for people

Support for social development

Social Development

- Contribute towards the social development of the communities where it does business
- Social solidarity
- Social and family support to employees of the Mota-Engil Group
- Volunteer work
- International solidarity

Social Development

- Present the Manuel António da Mota Award annually to recognise organisations and personalities who have distinguished themselves in the various areas of the Foundation’s activities

Culture

- Promote culture, enhance its value and access to the enjoyment of cultural assets in the fields of fine arts, the performing arts, music, humanities, science, and technology
- Cultural programming
- Support to cultural agents
